OBJECTIVE

Experienced and hard-working Junior Java Developer with more than 2 years of experience in developing Java. Working as a Java Developer at FPT Software, I have built backend web applications with foundations in Java 8 and Microservices with Spring Boot and PostgreSQL. I have in-depth, hands-on knowledge of ORM, SQL, OOP, and system integration with third parties. I also have skills in dealing with customers, communicating in English, system design, and teamwork. With intense passion and desire to dedicate myself to the work, I am looking for an opportunity to dedicate and use all my skills to make a contribution to the organization and to further develop myself to become an outstanding employee.

TECHNICAL SKILLS

Programming Languages:	Java, Kotlin
DB Management Systems:	PostgreSQL, MongoDB, Oracle, MS SQL, MySQL
Frameworks	JSP, Spring, Spring Boot, Hibernate, JPA
Others	Experience with AWS CI/CD pipelines, using Docker

WORK EXPERIENCE

Feb 2022 - Present

Java Developer - FPTSoftware
- Java 8, PostgreSQL.
- Using Spring Boot for REST APIs. Provide services in development, support, and maintenance for multiple modules inside Quality Suite ecosystems.
- Golive successfully two large and considered complex and big projects as the main BE Developer.
- Many times received the title Best Performance, always appreciated for the attitude and quality of work.
- Successfully organized sharing sessions about the experience and business, and training for 4 members.

Mar 2021 - Feb 2022

Mobile Developer - SSG Total Solutions
- Java 8, Dart, PostgreSQL, Oracle, Firebase.
- Designed and built mobile apps using Flutter (Dart), and Android. Oracle EBS, Idempiere (Java).
- Golive successfully with two solution projects for two large domestic enterprises. Received many compliments from customers and the company as the main Mobile Developer and Consultant.
- Trained and supported 3 members.

Jan 2018 - Aug 2020	**Android Developer - Freelance**
	- Java 11, Firebase.
	- Built Android apps.
	- Designed and developed many applications, with ScreenShot receiving the most downloads (more than 100,000).

PROJECTS

RQS
(Feb 2022 - Present)

Customer	Confidential information
